

HEAVY FORGING

JET HEAD

BRILLIANCE@SCALE

THREE HEAD, ONE PURPOSE: DRILL DEEPER

A complex component that, when combined with two others, forms the body of an auger. Forging using this geometry allows for greater strength for long-term use and high durability. Weight from 2.3kg to 234kg.

Technical Specifications

- Medium carbon alloy steel
- Hot forged to increase part strength
- Strong control of tolerances for better results
- Complex geometry that reaches an high durability because the steel grain structure
- Min. weight 2.3kg
- Max weight 234 kg
- Min. size 285x90x25
- Max. size 815x428x335

Performance as Per Design

Features

- ✓ Drill
- ✓ Finish by forging
